Primary Operating Systems Among Professional Developers

Source: Statista

00 Public servers on the Internet

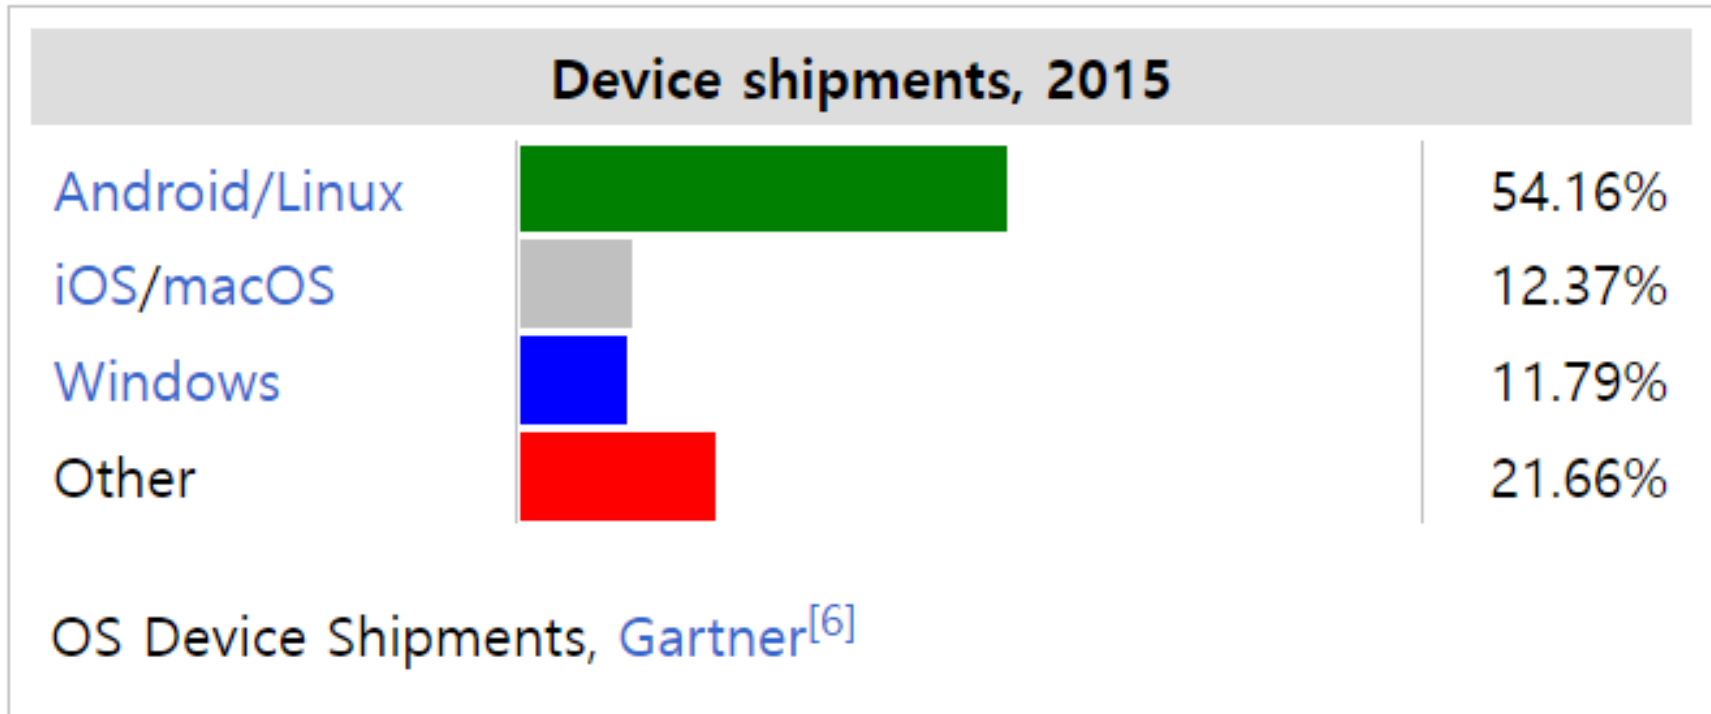

Source	Date	Unix, Unix-like	Microsoft Windows	References
W3Techs	14 July 2022	80.1%	20.1%	[247][248]
Security Space	Feb 2014	<79.3%	>20.7%	[249][250]

Note

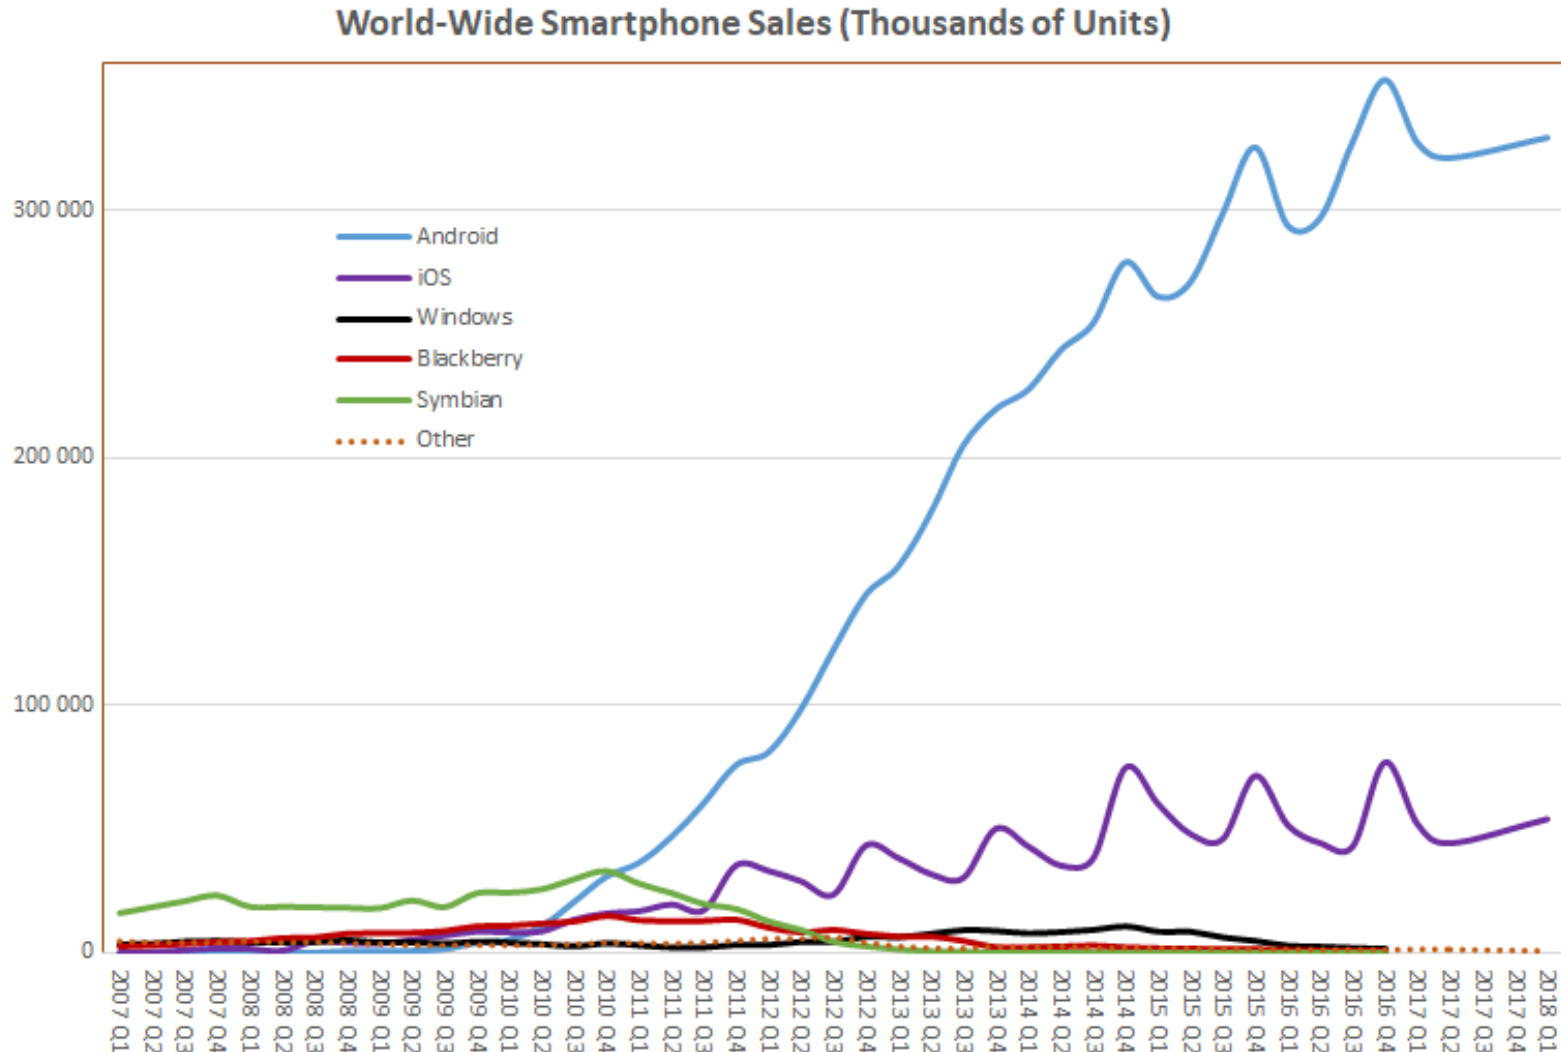

W3Techs checked the top ten million web servers daily from June 2013, but W3Techs's definition of "website" differs a bit from Alexa's definition; the "top 10 million" websites are actually fewer than 10 million. W3Techs claims that these differences "have no statistical significance".^[251]
